Without derogating from the generality of the foregoing neither the BIOMASUD PLUS Consortium nor any of its members, their officers, employees or agents shall be liable for any direct or indirect or consequential loss or damage caused by or arising from any information advice or inaccuracy or omission herein.

WEBSITE

A dynamic project website will be created, in order to ensure a clear communication and wide dissemination of the project news, activities, outputs and results. This communication channel is of prime importance due to the expected impact it may have on the target audiences. It should provide them with a stable source of information. Thus, it will be created as a living space, with regular news and articles.

The web will be regularly updated and will include most significant and relevant facts of the project will be posted on the Web, including full details of the project in terms of results, organized events, progress of the project, public deliverables, related news, leaflets, etc.

The web will have an internal area “intranet” where partners could share management documents (i.e. work program and monitoring tools, internal deliverables and interesting documents for implementing the project)

To give visibility of the project to the citizens of the European Union , the main language of the web site will be the English but contents that don't need a regular update like project objectives, contact information, etc. will have a version in all the languages of the consortium (Italian, Greek , Portuguese, Slovenian, Turkish, Croatian and Spanish).

The website will integrate social media by publishing the profiles or hashtags related to the project. A widget showing twitter related news will be integrated in the WEB's homepage.

The website will exist under the domain name www.biomassudplus.eu, and will remain at least 3 years after the end of the project.

The graphical design will have to be developed in line with the corporate image.

HISTORICAL OF THE WEBSITE

- Since the beginning of the project (first week of January) a Landing page was created with the dominium www.biomasadplus.eu
- We have asked for several offers and the process was closed 2nd week of April
- Since 3rd week of April. There is a basic version of the WEB in English with main information of the project.
- All information has been sent already to the designers of the WEB and shortly will be ready (end June 2016)
